🟢 WEEK 1 — Thinking Like CF (Foundations + Confidence)

Goal: Stop freezing. Learn to *extract ideas*.

Topics

- Implementation discipline
- Math observations
- Prefix sums
- Two pointers (basic)
- Binary search (revision)

Mandatory Problems (CF)

1. 1367B – Even Array
2. 1472B – Fair Division
3. 1512A – Spy Detected
4. 1742C – Stripes
5. 1791C – Prepend and Append
6. 1660B – Vlad and Candies
7. 1619B – Squares and Cubes
8. 1623A – Robot Cleaner
9. 1676C – Most Similar Words
10. 1840B – Binary Cafe

Completion Test

- Solve **any 3 new 1000–1100 problems** in $\leq$25 min each.

🟢 WEEK 2 — Greedy Thinking (Most Important Jump)

Goal: Learn when greedy works & WHY.

Topics

- Sorting + greedy
- Take minimum / maximum strategies
- Greedy with prefix/suffix

Mandatory Problems

1. 1490C – Sum of Cubes
2. 1605B – Reverse Sort
3. 1385C – Make It Increasing
4. 1702C – Train and Queries
5. 1805B – ICPC Balloons
6. 1613B – Absent Remainder
7. 1538C – Number of Pairs

8. 1829D – Gold Rush
9. 1675C – Detective Task
10. 1352C – K-th Not Divisible

Completion Test

- Explain **why greedy is valid** in at least 3 problems.

🟢 WEEK 3 — Binary Search + Prefix Mastery

Goal: Stop using BS blindly.

Topics

- Binary search on answer
- Prefix sums + queries

Mandatory Problems

1. 1624F – Interacdive Problem (offline reasoning)
2. 1661C – Water the Trees
3. 1706B – Making Towers
4. 1623C – Balanced Stone Heaps
5. 1608C – Array Elimination
6. 1703G – Good Key, Bad Key
7. 1843E – Tracking Segments
8. 1715C – Monoblock
9. 1537E1 – Erase and Extend (easy version)
10. 1680C – Binary String

🟢 WEEK 4 — Core DP (You already know basics → deepen)

Goal: Pattern recognition, not memorization.

Topics

- 1D DP
- Knapsack-like thinking
- Transitions reasoning

Mandatory Problems

1. 1638B – Reverse
2. 1635C – Differential Sorting
3. 1709C – Recover an RBS
4. 1741E – Sending a Sequence
5. 1665C – Tree Infection
6. 1696C – Fishingprince Plays With Array
7. 1552D – Array and Operations
8. 1650F – Vitaly and Advanced Useless Algorithms
9. 1799D – Remove Two Letters
10. 1805C – Monsters And Spells

🟢 WEEK 5 — Trees (Your Biggest Gap)

Goal: Remove fear.

Topics

- Tree traversal
- Subtree size
- DFS intuition

Mandatory Problems

1. 1675D – Vertical Paths
2. 1760G – Teleporters
3. 1741G – Sending a Sequence
4. 1822F – Gardening Friends
5. 1665C – Tree Infection (revisit)
6. 1714F – Build a Tree
7. 1798E – Rectangle Shrinking
8. 1872F – Selling a Menagerie
9. 1705C – Mark and His Unfinished Essay
10. 1843F – Random Events

🟢 WEEK 6 — Graphs (Only Essential)

Goal: BFS/DFS confidence.

Topics

- BFS / DFS
- Bipartite check
- Shortest path (basic)

Mandatory Problems

1. 1740C – Traffic Light
2. 1791G – Teleporters (Easy BFS)
3. 1705B – Mark the Dust Sweeps
4. 1760E – Binary Inversions
5. 1661B – Getting Zero
6. 1775C – Interesting Sequence
7. 1842D – Ice Cream Balls
8. 1729C – Jumping on Tiles
9. 1611E1 – Escape The Maze
10. 1715B – Beautiful Array

🟢 WEEK 7–12 — CONTEST MODE (THIS MAKES YOU CM)

Weekly routine:

- 3 CF contests/week (Div 2)
- Upsolve **ALL unsolved ≤1600**
- One weak-topic repair per week

Mandatory:

- Maintain error log
- Weekly reflection:
    - why did I panic?
    - where did I misread?
    - which pattern was missing?
